- EN 60598-1
- EN60598-2-22
- EN55015
- EN61547
- EN61000-3-2

Due to rapid on/off switching cycles required by some medical diagnostic equipment, we recommend the use of our additional delay off timer. This avoids generation of high in-rush currents that may harm control relays. - Please contact our Technical Department for further advise.

For more information on colours, please go to the **Finishes Page**. For more information on Legends, please go to the **Legends Page**.

*For input voltages please refer to our installation leaflets.
